

Testing Report Disclaimer

This report is solely for the benefit of the Client. Any person or party designated by the Client to receive information in this report shall be subject to the TERMS AND CONDITIONS contained herein. Such designation shall be provided in writing by the Client and accepted by a Faro Disinfecting Services Legal Representative.

The purpose of this report is to show evidence of the effectiveness of the treatment provided to destroy or irreversibly inactivate infectious fungi, bacteria, and viruses on hard inanimate surfaces sampled, on basis of the ability of an ATP-based system to detect microbes and organic contaminants.

This is a non-intrusive, disinfection and is not intended to include exteriors, foundations, behind walls, ceiling, ducts or any not accessible surface including encapsulated contaminants like mountain mold and crystalized contaminants.

Faro Disinfecting Services with Ozone and/or Hydroxyl treatments do not completely eliminate the risk of illness or death, and provides no warranty, either express or implied, including any warranty of no future microbial growth.

Treatment cannot penetrate walls or destroy microbial growth below the surface. Nor can it solve the underlying source problems for IAQ.

Website Disclaimer

While Faro Disinfecting Services makes every effort to present accurate and reliable information on this website, Faro Disinfecting Services does not approve, endorse, or certify that information, nor does it guarantee the accuracy, completeness, efficacy, or timeliness of such information. Use of any information is voluntary, and reliance on it should only be undertaken after an independent review by qualified experts.
